### Projects

**TestCracker | HTML, CSS, React, Node.js, Express.js, MongoDB**

- Built an MCQs-based educational app with features for subject-wise and chapter-wise question categorization.
- Developed backend functionalities with Node.js and Express.js for efficient data handling.
- Integrated MongoDB for secure data storage, with user profiles and progress tracking under development.

**Power Directory | HTML, CSS, React, Node.js, Express.js, MongoDB**

- Created an application providing department-wise contact details for the Power Sector.
- Implemented features to display department hierarchy, facilitating easy navigation.

**Gemini Clone | HTML, CSS, JavaScript, React**

Link: <https://gemini-clones.netlify.app/>

- Developed a Gemini Clone application using React, replicating key functionalities of the original app.
- Deployed the application on Netlify for hosting and public access.

### **College App | HTML, CSS, JavaScript, React**

Link: <https://afnan-college.netlify.app/>

- Built a dynamic college web application, including interactive visualizations to display college-related data.
- Managed deployment on Netlify, ensuring smooth and reliable hosting.

### **Portfolio | HTML, CSS, JavaScript**

Link: <https://afnan-portfolio.netlify.app/>

- Designed and developed a personal portfolio with interactive animations and transitions for an engaging user experience.
- Deployed the portfolio on Netlify, showcasing personal projects and skills.
